

COURSE	TITLE	DURATION
CAG-200-1	Implementing Citrix Access Gateway 9.0 Enterprise Edition	16 H.

Description:

This course covers information administrators and other IT professionals need to successfully deploy and manage Access Gateway 9.0 Enterprise Edition and the Access Gateway Plug-ins. Designed to provide real-world experience, hands-on labs allow learners to configure an Access Gateway server and then connect to the server using the Configuration Utility.

Key Skills:

Upon successful completion of this course, students are able to:

- Explain how the Access Gateway Enterprise Edition differs from the Standard and Advanced Editions.
- Perform the initial configuration of the Access Gateway server.
- Install Access Gateway Plug-ins for Windows, ActiveX and Java.
- Configure VPN virtual servers.
- Create policies to customize VPN behavior.
- Customize client experience and login pages.
- Configure Access Gateway to integrate with XenApp and WANScaler.
- Create and configure policies and profiles.
